

Fairfield Police Athletic League Travel Basketball

Program Overview

Registration and Fees Registration takes place every year in early September (exact dates and fees are published on the PAL website www.FairfieldPAL.org). The participation fees must be paid at the time of registration - although checks are deposited only if and when children are placed on rosters. The rest of the checks are then destroyed by the PAL.

Teams & Rosters Fairfield PAL generally fields the greatest number of travel basketball teams in the state of CT. Through PAL's fundraising and subsidies, we can offer an affordable yet high quality travel basketball experience for boys and girls in grades 4 - 8. We generally field two teams at each grade level, but we do our best to adjust to the pool of talent in each grade. We also build the teams to compete at specific ability levels (A, B, C) within the Fairfield County Basketball League (FCBL) and the Milford Knights Basketball League (MKBL) where the teams participate.

Evaluations All boys and girls that registered attend one or more evaluations in late September/early October, where we challenge ourselves to select the boys and girls we believe will succeed playing travel basketball. The players are evaluated by several experienced youth basketball coaches, including high school and AAU coaches.

Practices Our teams practice 2-3 hours per week at a Fairfield public school. Practices are between the hours of 5-9:30pm.

Game Schedule Teams usually play 1-2 games every weekend from November until mid-March. Some teams also play in outside tournaments during and after the winter season. Home games are played on Sundays at Tomlinson Middle School or Roger Ludlowe Middle School. Away games can be anywhere in CT - from Greenwich or Ridgefield in the west to Bristol or Guilford in the east.

Commitment Participating on these PAL travel teams is a large commitment, and teams can only be successful if ALL players attend each and every practice and game throughout the season. We ask that each player and parents discuss the level of commitment involved prior to participating in the Evaluations.
